Non-GMO / Gluten Free / Soy Free
Store in a cool dry place.

INGREDIENTS

Standardized Saw palmetto berry extract, guaranteed to supply 85% to 95% percent fatty acids and beneficial plant sterols.

BENEFITS

- Effective Prostate Support*

EXTENDED BENEFITS

Effective Prostate Support*

Saw palmetto extract is one of the world's leading herbal products for prostate support. Widely-cited clinical studies conducted during the 1980s have clearly established the ability of Saw palmetto extract to significantly support prostate-related urinary function. Saw palmetto's key active ingredients help to enhance prostate gland structure, as shown in clinical studies where saw palmetto extract promoted healthy urinary functions and prostate structure; quality of life scores also improved. The results with saw palmetto extract have been duplicated in open trials and controlled, double-blind studies.

Saw palmetto's effectiveness comes from its content of natural fatty acids and sterols. These include oleic acid, lauric acid, campesterol, stigmasterol, beta-sitosterol and others. The standard of quality for saw palmetto extract products is a high concentration of fatty acids and sterols, equaling up to 95%.
